

MODEL: NARROW TIRE SET (58MM DIA), 70145**STOCK CODE: 24020000****Description**

Use the pair of tires in this set for small and medium-sized robots that must make precise movements. With a 58mm diameter and solid, rounded, 15mm treads, these wheels will let your robot turn with little friction, even on rough surfaces like carpet. This narrow tire set requires assembly. Assembly guide is included.
